

# Controller of Site Safety (COSS): 5 Day Sentinel Certification

## Controller of Site Safety (COSS): 5 Day Sentinel Certification

The Controller of Site Safety (COSS) 5 and a half day Sentinel Certification course is for individuals who are required to set up a safe system of work on Network Rail's infrastructure and act as a COSS when deemed necessary by their manager. The individual will be over 18, and their responsibilities may involve protecting a group of people working near or on the line. Individuals on this course will be selected by employers as displaying an aptitude for the role and prior experience.

### Course Content

By the end of the course, the candidate will be able to demonstrate their ability to correctly interpret relevant parts of the Rule Book and Railway Group Standards when acting as a COSS. They will also be able to demonstrate their understanding and ability to set up a Safe System of Work before any group of staff can go near or on the line. The first day of the course will be for the Personal Track Safety re-certification, and the rest of the course is the Controller of Site Safety content.

### Re-certification

Re-certification is required in this role, please contact us directly so we can advise you of the options available for each individual learner.

### Sentinel Scheme

The Sentinel system is a scheme from Network Rail that ensures all individuals that work in the railway industry are competent in their job role, and are medically fit to do so. Only approved training providers can deliver this training, with learners being subject to specific criteria they need to fit before being eligible to take part. This will be provided when making a booking, and we will encourage you to thoroughly check the learner meets this criteria before proceeding with the booking.

### Developing U

If you are interested in this course, please contact Developing U directly to discuss pricing and course arrangements. Please state whether the interest is in the full course certification, or the re-certification of an existing Controller of Site Safety.
