

# Engineering Supervisor: 2 Day Sentinel Certification

## Engineering Supervisor: 2 Day Sentinel Certification

The Engineering Supervisor 2 day Sentinel certification course is suitable for those over the age of 18, who will be required to be in charge of a worksite, and authorise the movement of trains within this area. The learner should have two years of documented prior experience, including carrying out COSS duties, as well as taking supervisory responsibility for a group of people.

### Course Content

The course will cover the following objectives: requirements of appointing an Engineering Supervisor; discuss topics of pre-planning meetings; information required by Engineering Supervisor; effective communication skills; basic procedure followed by PICOP when a possession is taken; state and demonstrate procedure to authorise work starting; how to set up a safe work site; safe and efficient train movement practice; how to suspend or hand back a worksite; correct recording of all information

### Re-certification

This course is also available as a one day re-certification course. This would be for individuals who wish to remain an acting Engineering Supervisor, with their existing certificate having expired or is due to expire within the next 8 weeks. They will also have to have the correct number of log book entries and work place assessments within acceptable timescales, to be eligible to attend. The re-certification is required every two years if the individual would like to continue as an Engineering Supervisor.

### Sentinel Scheme

The Sentinel system is a scheme from Network Rail that ensures all individuals that work in the railway industry are competent in their job role, and are medically fit to do so. Only approved training providers can deliver this training, with learners being subject to specific criteria they need to fit before being eligible to take part. This will be provided when making a booking, and we will encourage you to thoroughly check the learner meets this criteria before proceeding with the booking.

### Developing U

If you are interested in this course, please contact Developing U directly to discuss pricing and course arrangements. Please state whether the interest is in the full course certification, or the re-certification of an existing Engineering Supervisor.
