

Individual Working Alone: 3 Day Sentinel Certification

Individual Working Alone: 3 Day Sentinel Certification

The Individual Working Alone 3 day Sentinel Certification course is intended for those who wish to work alone on Network Rail's infrastructure. This course also covers Personal Track Safety re-certification. This course is suitable for those over the age of 18 with an existing Personal Track Safety certificate. The individual's Sponsor will also have to deem the individual as mature enough for this role, has suitable rail experience, and will be required to work alone on the railway. Any individuals with a red triangle on their Personal Track Safety card are not eligible for this course.

Course Content

The course covers the Personal Track Safety re-certification, covering all necessary health and safety for working near and on the railway line. The learner will also be introduced to the responsibilities of an Individual Working Alone, how to communicate clearly, further health and safety precautions, and the basis of what is expected when working alone.

Re-certification

This course is available as a two day re-certification for those wanting to maintain their Individual Working Alone competency. This is required every two years, as part of the competence assessment cycle. This course can be attended up to two months prior to the expiry of the existing certificate, and will be valid for two years from the end of the initial certificate.

Sentinel Scheme

The Sentinel system is a scheme from Network Rail that ensures all individuals that work in the railway industry are competent in their job role, and are medically fit to do so. Only approved training providers can deliver this training, with learners being subject to specific criteria they need to fit before being eligible to take part. This will be provided when making a booking, and we will encourage you to thoroughly check the learner meets this criteria before proceeding with the booking.
