

# Lookout/Site Warden: One Day Sentinel Certification

## Lookout/Site Warden One Day Sentinel Certification

The Lookout/Site Warden One Day Sentinel Certification course is intended for those who wish to work near and on the line of Network Rail's Infrastructure. This course is suitable for those aged 18 and over, who have been designated as suitable by their Sponsor. The individual will be required to give warnings to others working in the railway environment in red and green zones.

### Course Content

The course content will cover the basics of being a Lookout/Site Warden in accordance with rules and regulations working in the rail industry. They will understand their role in a red zone with a train approaching, and in green zones where worksite limits are not being adhered to.

### Re-certification

Re-certification is required for this course when the individual wishes to continue their duties as a Lookout/Site Warden, and their existing certificate is due to expire soon, or has just expired. The individual will only be eligible if this condition is met, and that they have a valid Sponsor to support them. This is a one day re-certification course.

### Sentinel Scheme

The Sentinel system is a scheme from Network Rail that ensures all individuals that work in the railway industry are competent in their job role, and are medically fit to do so. Only approved training providers can deliver this training, with learners being subject to specific criteria they need to fit before being eligible to take part. This will be provided when making a booking, and we will encourage you to thoroughly check the learner meets this criteria before proceeding with the booking.

### Developing U

If you are interested in this course, please contact Developing U directly to discuss pricing and course arrangements. Please state whether the interest is in the full course certification, or the re-certification of an existing individual with the Lookout/Site Warden certification.
