

OTP Core: Two Day Sentinel Certification

On Track Plant Core: Two Day Sentinel Certification

The On Track Plant Core Two Day Sentinel Certification course is designed for individuals who currently hold a Personal Track Safety certification, with a Level 1 Medical assessment, who wishes to progress to work with On Track Plant. This course is a requirement for any individual needing to undertake lifting duties involved with On Track Plant. The course is run for two days, and is classroom-based.

Course Content

On completion of the course, the individual will be able to progress into being an Operator or Controller of various modules within the On Track Plant scheme. This course covers the knowledge of the machines and plant found on the track, to then be able to progress and gain competency with further training on them.

Re-certification

Re-certification for On Track Plant Core is a half day classroom-based course, which aims to refresh the individual's underpinning knowledge required to undertake machine and crane controlling, as well as crane operator training. Please contact us directly to ensure that the individual meets the criteria for re-certification.

Sentinel Scheme

The Sentinel system is a scheme from Network Rail that ensures all individuals that work in the railway industry are competent in their job role, and are medically fit to do so. Only approved training providers can deliver this training, with learners being subject to specific criteria they need to fit before being eligible to take part. This will be provided when making a booking, and we will encourage you to thoroughly check the learner meets this criteria before proceeding with the booking.

Developing U

If you are interested in this course, please contact Developing U directly to discuss pricing and course arrangements. Please state whether the interest is in the full course certification, or the re-certification of an existing individual with the On Track Plant certification.
