

# Personal Track Safety - E-Learning: One Day Sentinel Certification

## Personal Track Safety—E-Learning: One Day Sentinel Certification

The Personal Track Safety E-Learning One Day Sentinel certification course consists of an initial classroom-based session to provide the candidates with the knowledge of the topics to be covered later on the E-Learning aspect of the course. The E-Learning aspect of the course takes up to three and a half hours to complete, with a short online exam being completed as part of this. Having this course with the classroom-based session is not mandatory to proceed on to the practical Personal Track Safety course, however the E-Learning assessment will need to be completed by the candidate beforehand. This course is ideal for those over the age of 16 that may not be IT literate, and may not feel confident to take the course on their own, but will be expected to work near or on the railway. The individual will have completed a medical, drug and alcohol screening prior to the course, and is being sponsored by a link-up approved railway company to be eligible for the course.

### Course Content

The classroom-based section of the course will cover all points that will be addressed on the E-Learning programme, including personal safety, general health and safety, and how to deal with an emergency.

### Re-certification

Re-certification is available for the full Personal Track Safety Sentinel qualification, and takes into consideration the completion of the practical and E-Learning certificates. Please contact us directly if you are interested in the re-certification course.

### Sentinel Scheme

The Sentinel system is a scheme from Network Rail that ensures all individuals that work in the railway industry are competent in their job role, and are medically fit to do so. Only approved training providers can deliver this training, with learners being subject to specific criteria they need to fit before being eligible to take part. This will be provided when making a booking, and we will encourage you to thoroughly check the learner meets this criteria before proceeding with the booking.

### Developing U

If you are interested in this course, please contact Developing U directly to discuss pricing and course arrangements. Please state whether the interest is in the full course certification, or the re-certification of an existing individual with a Personal Track Safety certificate.
